+1 (808) 426-6141

Hawaiian Ocean View, Hawaii, USA

Full stack web developer with 5+ years experience freelancing, earning consistent 5-star reviews on platforms like Fiverr. Developed web apps using Typescript, Nodejs, Nextjs, and React, implemented REST APIs, databases (MongoDB, SQL), and optimized for hundreds of concurrent users.

## Work Experience

### Full Stack Web Developer

Jan 2020 - Present

*Freelance | Remote*

Developed 15+ Discord bots for moderation, automation, data analytics, and community engagement for clients across the world. Deployed Nextjs/React websites that managed user accounts and payments through Stripe

- Implemented REST APIs, MongoDB/SQL, and streamlined interactions through optimization
- Managed hosting, proxies, databases, and diagnosed issues for clients
- Supported clients with ongoing communication and updates

## Projects

### Portfolio Website

Apr 2025 - Present

<https://guniqueg.vercel.app> | Built with Typescript, Next.js, TailwindCSS, shadcn/ui, and Motion

- Designed with a clean, responsive UI to showcase my projects and contacts
- Deployed with Vercel for fast, serverless hosting

### AI Moderation Bot for Discord

Feb 2025 - Present

Client work for a 10K+ member server | Built with Typescript, Discord.js, MongoDB, and OpenAI API

- Developed a smart moderation system using OpenAI GPT, regex filters, and user history tracking
- Batches and prioritizes messages with auto-flagging based on behavior and strike history
- Features token-saving logic, custom blacklists, and cache-based message filtering

### Vinted-to-Discord Bot

Mar 2025 - Present

Client work for filtered marketplace alerts | Built with Typescript, Discord.js, and MongoDB

- Demonstrates backend automation, proxy management, and external API integration
- Integrates with Vinted's unofficial API and rotating proxies to bypass rate limits
- Implements keyword filters, caching, and real-time alerts via Discord embeds

## Core Skills

Typescript, Javascript, Nextjs, React, TailwindCSS, Nodejs, Express.js, MongoDB, SQL, Git, AWS EC2

## Education

### Self-Taught / Independent Study

Jan 2019 - Present
