EXPERIENCE

Freelance Developer, Remote

January 2021 - PRESENT

Built and delivered 15+ Discord bots for moderation, automation, games, and community engagement. Created clean websites and dashboards.

Provided ongoing support, updates, and communication for clients.

PROJECTS

Portfolio Website — Personal (*Next.js, TailwindCSS*)

- Clean, responsive UI using TailwindCSS, shadcn/ui, and Motion
- Showcases my top personal and client-based projects
- Deployed on vercel

AI-Powered Moderation Bot — Client Work (*Discord.js, MongoDB, OpenAI*)

- Uses GPT, caching, and custom filters to moderate user activity
- Built to moderate a Discord server with 10k+ members

Other — Client Work

Yt-dlp Bot (Discord.js, MongoDB) - Uses yt-dlp to stream from music services to Discord

Vinted Bot (Discord.js) - Gets listings from Vinted and filters them based on user-defined criteria, sends new matches to Discord

EDUCATION

Self-Taught Developer

January 2020 - Present

Built knowledge through documentation, real-world projects, freelancing, and communicating with real clients.
